Plug Power announces Preeti Pande as new Chief Marketing Officer

Plug Power Inc. today announced Preeti Pande as its new Chief Marketing Officer. She will lead and facilitate growth and increased sales by developing a comprehensive marketing strategy that will promote brand recognition and transform the green energy market through Plug Power's hydrogen solutions. Pande has extensive experience in the fuel cell industry, having previously served in roles both as Vice President of Product and Vice President of Strategic Initiatives for Bloom Energy. She was responsible for managing the product life cycle, and defining integrated product offerings and product roadmaps for the next generation of fuel cell technologies and energy solutions. She was also responsible for Bloom Energy's entry into maritime transport markets.
